Doris Coghill classes

Z Beads and what to do with them – (Thursday after dinner)
Z Beads have been produced in Czech for several years, but you do not usually see them here in the US. On my last trip to the Czech the factory where they are made showed us several designs. You can pick which one you want to make. There will be 7 colors to choose from (see below). Bring size 11 and 15 seed beads, and a clasp for a bracelet. (3 or 4 mm Fire Polish for the version on the left)

Butterfly and Peanut Beads – (Friday after brunch)
Lisa Dooley introduced you to Butterfly Beads in a recent Lets Bead Live segment. They are similar in shape to Peanut beads but have larger ends. The bracelet on the left is done in RAW with the large-size Butterfly Beads and size 11 seed beads. The bracelet on the right is done in RAW with 2 colors of Japanese Peanut beads and 4 mm Chinese Rondell crystal. There will be 5 colors of Butterfly beads to choose from, along with Peanut beads. Bring size 11 seed beads and a clasp.
Must be knowledgeable in RAW
