

Charming Fringe Earrings

by TrendSetter Rochelle Peterson

Using Right Angle weave stitch you will create Unique Charmed Fringes to hange on Wire loops with accent beads in-between for added dimention.

Step 1. Add 4 A to 2" of thread, slide beads down to leave 5" tail. Circle around to pass through all beads again, (a) pull taught so beads are at 90 agles. and tie knot with tail. (b. Black line) pass forward through next 2 A beads. (c, Red line)

Step 2. Add 3B, slide beads down next to previously added beads, circle around and pass forward through A, just exited, and 3B, just added. (a Black line)
Pull thead taught so beads are at 90 degree angles, Pass forward through A, and 2B (b Red line)

*Note : For each step, you will add each set of 3 beads this same way, Add 3 beads, Circle around and pass forward through the bead just exited, and the 3 new set of beads, then pass forward through next 3 beads to always exit out the second bead added in each new set.
(see graph step 2b).

(Thread direction will change with each set:
clockwise/counterclockwise. (see graph step 3 lower right)

All 3 Fringes start with same beads for step 1 and 2,
starting with Step 3, the beads will change with each step
to create repetitive patterns.

Follow graphs to identify placement for each bead in the set of 3 to add.

The 2 side fringes are the same except with different charms on the bottom.
The Center Fringe is longest with the Arrow charm on bottom.
The Charm addition will be treated just like the center bead
of the last set of 3 .

Step 3. follow graph and list of beads to add with each step to create Fringe.
(Detailed graphs on next page)

To finish off each Fringe;

Step 4. After adding last set of beads with charm, pass through bottom 3 beads and charm again for strength. (see graph right black line)
Pass back up through all beads following circular thread path,
and tie off with tail. Weave in tails.
